Recommendation Letter: Rishi Sadu

To Whom It May Concern:

Rishi entered under my instruction as an intermediate student in Denmark High School AP Computer Science A (AP CSA), Future Business Leaders of America (FBLA), and is an individual that will be highly successful at the next level. Rishi continually strove to elevate himself and his peers in the constructive environment he cultivated. Within the year I have taught Rishi, he has always exhibited a spirit of curiosity. Never has he failed to rise to the occasion of exhibiting this spirit, even in the face of diving too deeply into personal projects that sometimes interfere with school and extracurricular responsibilities. Never has Rishi allowed a failure or a challenge limit the possibility for an intense exploration of concepts and quality-oriented work within AP CSA, FBLA.

Every academic endeavor Rishi has set his mind to has been charged with his aptitude for Computer Science (especially Cybersecurity). This success is chiefly derived from Rishi's qualities of being creative, trustworthy, tenacious, detail-oriented, and above all else a devotion to producing beyond that which is expected of him. When he placed First in Cyberstart America for the state of Georgia, I saw precisely how those characteristics amplified his decorated skills of critical thinking, passion, and diligence. Such rigorous adherence to academic standards and achievement certainly depicts Rishi's competitiveness.

Beyond the realm of academics, Rishi is an individual with an upstanding character. Rishi has been incredibly successful inside and outside the classroom, yet he is a considerate and sensible student. He inspires interest in his peers and commands the respect of all those around him through his humble and grounded character. Far from being robotic and dispassionate, Rishi animates the classroom with his committed, engaged, hard-working, creative personality.

Thus, it is with my sincere and complete approval that I direct your attention towards Rishi Sadu. In truth, he will be successful in all his endeavors, yet his mind and character are particularly equipped towards optimizing the value this well-deserved recognition can offer. I would be more than happy to elaborate on any of my statements here. Please feel free to call me at 470-533-2521 for any additional information.

Best regards,

Eric Arnold
